

Dynamic Yacht Management, LLC

Yacht Managers & Consultants
ISM / ISPS / ISO Systems & Solutions

Our Office is Certified to :
ISO 9001:2008 Standard by the American Bureau of Shipping

INTRODUCTION – IN PURSUIT OF EXCELLENCE

Dynamic Yacht Management provides a complete portfolio of yacht management services globally for all yacht segments - including new construction and project supervision – wherever and whenever you need them. Our services offer solutions for yacht owners and captains, providing unparalleled standards of quality and safety through individually designed management packages.

DYM is comprised of individuals with distinguished and diverse backgrounds in both the yachting and shipping industries. Collectively we have over 120 years of experience in the marine industry.

DYM professionals serve as members of various committees for classification societies, flag states, the International Maritime Organization (IMO), and in doing so, have played an important role in the development of the rules and standards in the shipping industry. Our team members have been on the panel of experts for the review of independent evaluations required by STCW regulations I/8 and section A-1/7 for the following countries: Australia, Bahamas, Greece, Kenya, Myanmar, Oman, Singapore, Trinidad and Tobago.

Dynamic Yacht Management is committed to a certified quality and safety management system following the standards laid out by the International Organization for Standardization (ISO). Our office is annually audited by American Bureau of Shipping for ISO 9001:2008 standard compliance.

Our in-house expertise - combined with an extensive global network of consultants, surveyors, and suppliers - allows for our ability to effectively and efficiently meet any challenge faced during the operation of your luxury yacht.

DYM is not associated with any chartering or brokerage house, however, will assist if requested.

Whether we provide full management or selected services, wherever and whenever our services are needed, mutual trust and integrity remain the essence of who we are and what we do.

Dynamic Yacht Management customizes the management package to suit the individual needs of each owner and/or captain. Regardless of the design of each package: our aim is to minimize the risk to personnel, property and damage to the environment, while also maximizing the efficiency of vessel operation by reducing the downtime associated with statutory requirements or port state control issues.

YACHT MANAGEMENT OVERVIEW:

- ◆ ISM / ISPS / ISO System Compliance
- ◆ Statutory and Regulatory Compliance
- ◆ Technical Management
- ◆ Logistic Support and Purchasing
- ◆ Financial Administration and Budget Forecasting
- ◆ Crew Training and CBT Training packages
- ◆ Yacht Registration and Insurance
- ◆ DPA/CSO/QI Services

Dynamic Yacht Management is experienced and certificated to administer the mandatory ISM (safety management) and ISPS (security management) systems for a commercial yacht on your behalf – under a variety of flags.

Our involvement with international regulatory bodies allows for Dynamic Yacht Management to design our systems to accommodate upcoming legislative changes prior to the implementation of these changes. This foresight allows for our clients to adjust to new requirements in a manner which suits their own scheduling needs as opposed to timelines determined by regulatory bodies

DYM's professionally developed relationship between various flag states and classification societies allows for us to effectively represent our clients. From certification maintenance to major refit, DYM will be there to assist with any and all statutory and regulatory concerns for our clients

ISM / ISPS OVERVIEW:

- ◆ DYM develops customized safety and security management system based on the needs of each yacht and captain.
- ◆ Provides secure, web-based access for statutory and regulatory documentation.
- ◆ On-board implementation, training and monitoring.
- ◆ Monitoring of monthly reports for compliance.
- ◆ On-board audits for compliance checks in accordance with the vessel's operation schedule.
- ◆ Provides 24 hour DPA, CSO and QI support.

CREW TRAINING - OUR MOTO - TRAIN DON'T STRAIN

A well trained crew is a key factor in the safe and effective operation of a yacht. Dynamic Yacht Management has initiated an innovative solution to expedite the performance improvement and consolidation of a yacht board training by providing customized on-board training in a wide range of areas. Our trainers, along with the captain, assess the gaps in the yacht board competence. Based on the assessment, customized lessons in basic concepts, group interactions on operational practices, safety and pollution prevention drills, and actual operation of equipment and machinery is provided to demonstrate the correct operational methods are designed and imparted to the crew.

DYM is there to support our vessels' captains by offering ongoing assistance with safety training and documentation maintenance for greater benefits and satisfaction to all parties involved.
